She has retired as advisor and professor of Biology at the Community College of Philadelphia. Rosamund enjoys retirement and mentors medical students at Eckerd College in Florida.

Vivian Claire Liu '98 of Singapore came to her 10th reunion and 10th anniversary of the Huntsman Program where she completed the rigorous program in business and the arts and sciences. She is a philanthropy consultant and founding director of Philanthropy Works - Singapore.

Ann Russell Williams '54 is very interested in art and came to see Sam Maitin's ('51) murals at the CA. She remembers having weekly lunches at the CA with the Methodist group. Ann enjoys reading the CA newsletters to keep up with the activities of the ministry.
